What AWmagazin.de offers

What distinguishes our offer

High-quality state-of-the-art design with a mobile-first approach - in line with the design standards of AW Architektur & Wohnen.

With our native advertising offers we provide you with an exclusive and guaranteed visible presence in a premium environment - without competing display campaigns. compared to display advertising, users find native advertising less disruptive, more entertaining, more interesting and more informative. this is why native advertising is usually clicked on more often than display advertising (depending on the content of the campaign).

Native integration including top premium placements instead of programmatic advertising. In addition to the right environment placement, you can also benefit from the high journalistic competence of the editorial teams and an image transfer.

With guaranteed visibility of the traffic drivers included in each package, we also ensure that your campaign is seen and that the campaign goals can be achieved. due to the increased use of ad blockers, classic/programmatic display campaigns are often limited in their effect.
