

AW Spezial Smart Home, sensual & smart

06/2019, PD 05 November 2019

AW Special is always monothematic and offer with his depth of information a significant added value for his readership and his advertisers. AW Special fits with the size of the main magazine and appear bundled in the total print run without the reading circle with AW Architektur & Wohnen 06/2019 (around 100.000 copies).

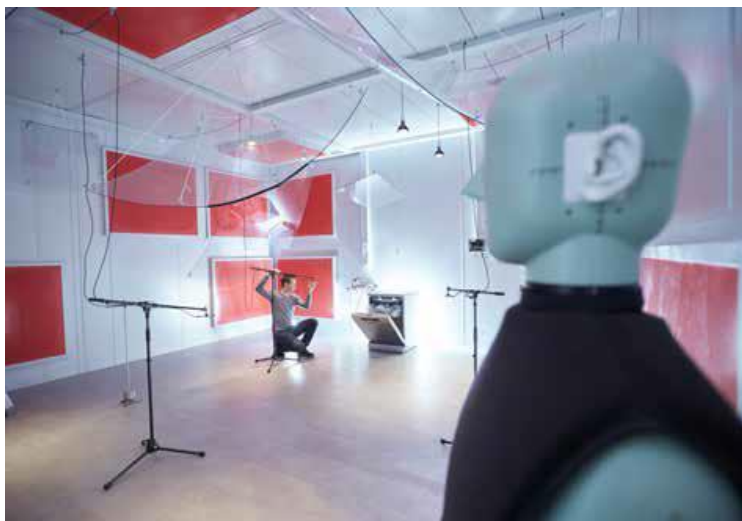

- **Visible Invisible:** Interview with Matteo Thun about his home and about architecture in times of digitization and smart living.
- **How do I design my smart home?** What should I know? Where do I start? How eco friendly is it going to be and what level of costs should I expect?
- **Clever research:** We visit a research laboratory and let us explain, how we can live in the future.
- **That's how smart and sensual works: a tour.** We present products classify in foyer, bath-, bed-, childrens-, workroom, living-kitchen and garage/garden, that you should be aware of.
- **We finally have understandable smart home systems.** From the washing mashine to the stereo system. Who can do what?
- **The security expert:** My home is getting smart and safe, but how can I protect myself and my privacy?
